

eMPF 1.0

The MPF system will undergo a digital transformation through the eMPF - scheduled to be launched by the second quarter of 2023. With an aim to streamline, standardize, and automate the existing MPF scheme administration, the new infrastructure will transform the MPF landscape for scheme members and the industry alike. What are the roles to play for different stakeholders including regulator, employers and providers? This hybrid seminar, supported by BCT Group, serves as the first industry-wide sharing from the HKRSA to give a broad understanding of this important initiative.
