### Re-Globalisation, Sustainability and Transformation under the New Normal

With the theme "Re-Globalisation, Sustainability and Transformation under the New Normal", this year's HKIB Annual Banking Conference will focus on the profound changes in the industry as a result of the pandemic and the key strategic goals that are high on the financial services agenda for the new normal.

The interactive program will explore the operational transformation megatrends, from cost transformation to reforming operational models. How the industry should continue to reinvent banking services, enhance customer-centricity, and respond to new macroeconomic and geopolitical realities will also be discussed. Our guest speakers will also highlight where the most significant opportunities are and the next frontiers that are driving the sustainable development of the banking industry in a globalised world.

The afternoon breakout sessions will also have deep-dive discussions on the new digital transformation priorities in responding to the rapidly evolving customer expectations and the shifting competitive landscape. The exciting developments in Fintech, Regtech and other emerging technologies will also be highlighted.

HKIB strives to provide a platform for the banking industry to get together and exchange new ideas so that they can capitalise on the new opportunities and understand the developments that will have overarching impacts on the banking industry.

**The Three Breakout Streams:** This is where industry leaders will focus on hot areas to deliver practical insights on implementing changes for the future today.

**The Exhibition Zone:** This is where delegates can check out the latest tools and gain specific insights into how emerging technologies might shape the future of banking.

Join 650+ of the banking industry's most influential and elite professionals at Hong Kong's premier annual banking event that is revered by banking professionals for more than a decade!
